Hotel Vista del Valle Plantation Inn, Costa Rica ----- Vista del Valle is located in the heart of the central valley's most beautiful and productive coffee and orange growing region. Mangoes, bananas, passion fruit and other tropical fruits abound on the property. The views of the valley and the surrounding mountains are stunning.

For those who want to discover the essence of Costa Rica and explore its many secrets, Vista del Valle becomes part of the adventure. From the time we pick you up at the airport, we can tend to virtually every need. The main house is an architectural marvel that features beautiful hardwoods, glass and stone, with high ceilings and an open floor plan. Each guest room has its own balcony and opens onto scenic views and gardens. The exquisite cottages inspired by Japanese design have all of the amenities of home in very private and beautiful settings.

Trails lead through the gardens, plantation, and through the nature preserve, to our own 300 foot waterfall. Bird watching, hiking, horseback riding, doing laps in our mosaic tiled pool, soaking in the Jacuzzi, or hammock time are just some of the favorite activities here.
